MEMERARDUM FOR: Deputy Director (Administration)

SUBJECT:

Reisburyment to _____ of Persity

and Interest on Late Income Tex Return

25X1A

1. This office previously concurred in the attached request from the Assistant Director for Communications dated 25 July 1952 for reinburgement of penalty and interest attributable to the late filing of ______ income tax. It was our understanding that the "Tailure of edministrative processes" produced consequent security problems that in turn gave the individual reasonable cause for failure to make timely tax payment and to file his return on the date due. In the absence of clour proof of record that the individual was either instructed to withhold filling of his return pending further advice from Beadquarters or that there was some other ground that would justify his delinquency on the basis of security, we concur in the view of the Comptroller insofar as there is no obligation to make such reinforgament on the part of the Government. However, we do not believe there is any valid legal basis for the Comptroller's recommendation that a procedure be developed for collection of the claim from any employee whose megligance resulted in the loss of another exployee. This would appear to be at best a personal tort between the two individuals concerned.

Assistant General Counsel
